EMPOWERING CHANGE

EARN DAILY INCOME

About Us

MS Welfare Trust is a forward-thinking educational welfare organization dedicated to transforming lives through the power of education and opportunity. We believe that knowledge is the foundation of progress, and every individual deserves the chance to learn, grow, and succeed—regardless of their background.

Founded with the aim of bridging the gap between learning and earning, our trust introduces an innovative network plan that not only supports students but also empowers agents to build sustainable incomes. By combining education with financial opportunity, we create a mutually beneficial system where both students and agents thrive.

Our approach is built on three core values

- **Education Access** – Ensuring students have the resources they need to excel.
- **Financial Empowerment** – Rewarding agents for their efforts in expanding the educational network.
- **Community Development** – Building strong, interconnected communities that support each other's growth.

Through our unique model, every agent becomes a catalyst for change, contributing to a chain reaction where more students gain access to education and more individuals achieve financial stability.

Education-Driven Initiatives

We stay ahead by constantly introducing innovative programs that make quality education more accessible. From scholarships to training workshops, we ensure students are equipped with the knowledge and skills they need to succeed.

Long-Term Agent Partnerships

We don't just see agents as members — we see them as long-term partners in our mission. Together, we create sustainable income opportunities while bringing education to more communities.

What makes us different?

At MS Welfare Trust, we believe in combining education with financial empowerment. We provide not just educational support, but also a structured earning plan that rewards agents for their contribution to our cause.

Focused on Growth & Impact

Our focus is on helping both students and agents grow. We provide resources, mentorship, and income opportunities that benefit individuals while strengthening the entire network.

—VISION

To become a leading educational trust that uplifts society through knowledge-sharing, financial empowerment, and a strong network of dedicated agents working together for a better future.

To promote education for all by connecting students with the resources they need, while providing agents with a fair and transparent income opportunity that encourages growth and community development.

MISSION—

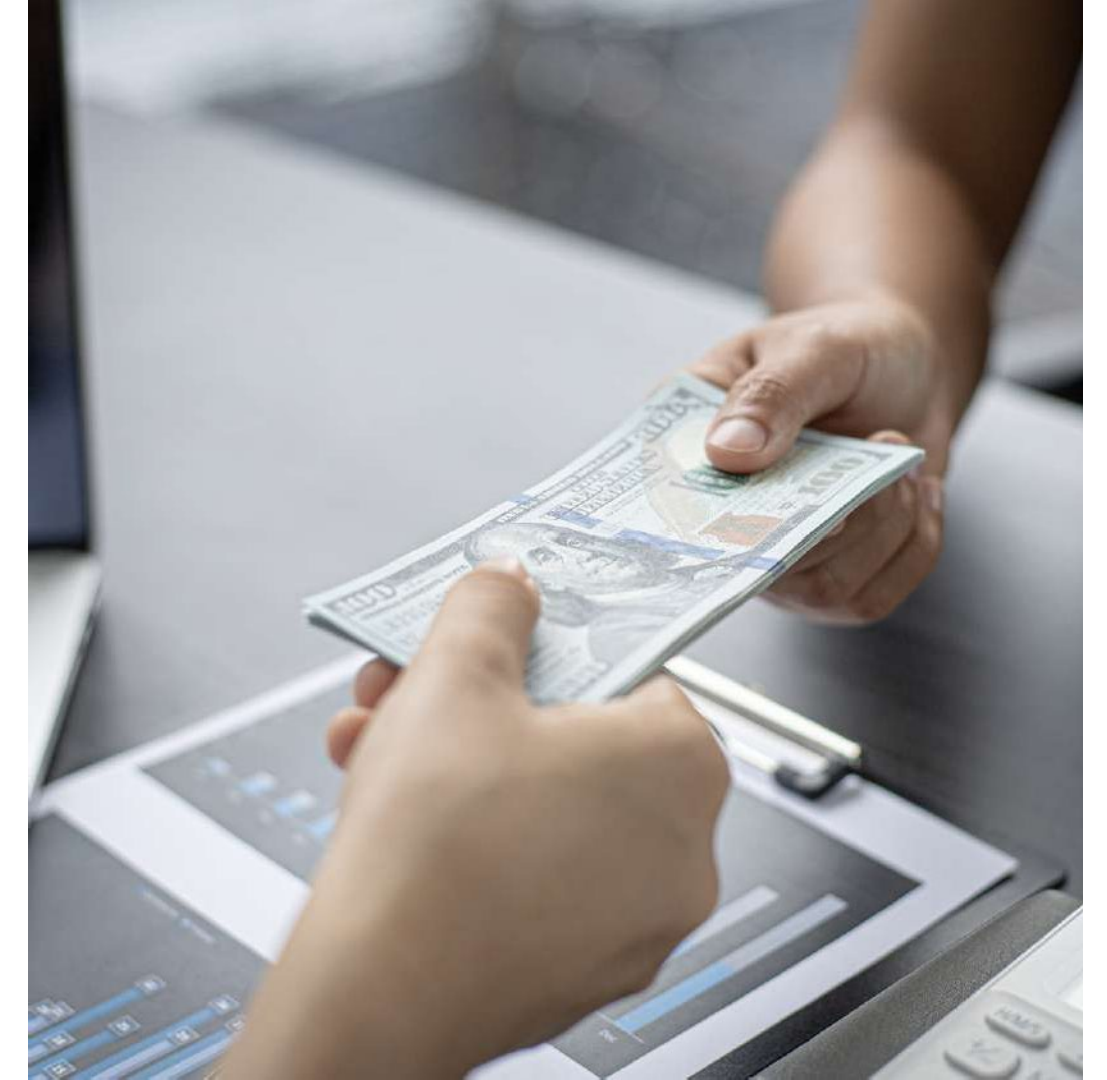

Types of Commission

Agent Commission

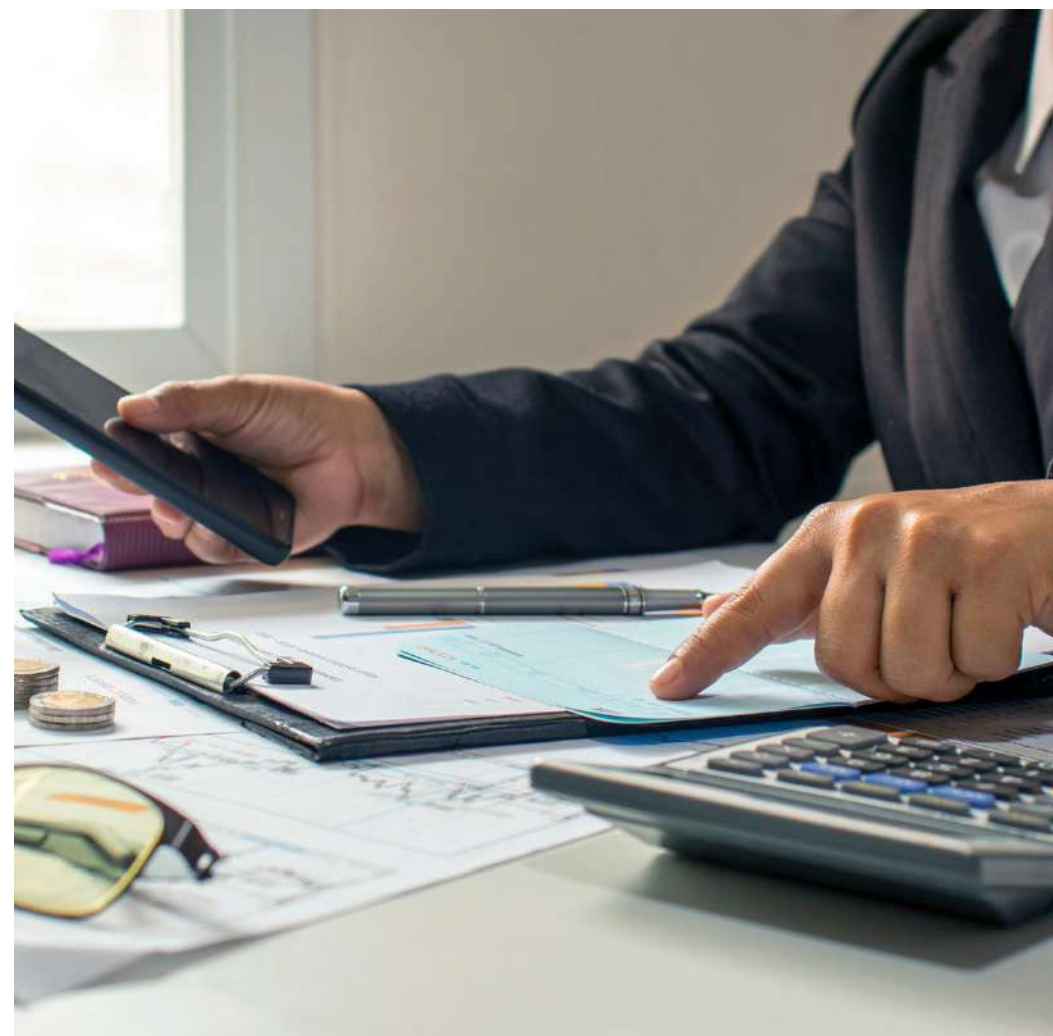

Student Commission

Joining Package

1250/-

Agent Commission
